

GROUND COVER

TENAX ground cover is manufactured from UV stabilised black woven polypropylene. Tough and tear resistant, it effectively controls annual and perennial weeds. It is ideal for use under patios, block paving and gravel paths.

- 95 gram bulk rolls and pre packs
- Allows air, water and nutrients through to the soil and plant root
- Environmentally friendly

WEED CONTROL FABRIC

When used in conjunction with mulch or wood chips, TENAX Weed Control fabric helps prevent the growth of wind blown seeds resulting in less weeding. Ideal for use on flower beds, embankments and under timber decking, this fabric also prevents the loss of wood chips into the soil.

- 50 & 60 gram bulk rolls
- 50 gram trade rolls / Promo box
