

Orange Barrier Fencing

The highly visible appearance together with the ease of installation makes this product range ideal for use as a temporary safety warning fence around construction sites and building projects.

Manufactured from HDPE in various weights and grades it is easily installed using fencing support stakes. Rot proof, UV stabilised and chemical resistant it can easily be re-rolled and

transported for further use.

ADVANTAGES:

- Cost effective
- High tensile strength
- Simple to install
- UV stabilised rot proof and chemical resistant
- Various weights and heights available
