PRO-610	PRO
Chemical Protection	

TREADSTONE SAFETY

Product Description

Premium grade re-usable 330mm nitrile gauntlets with a cotton flock lining. Providing user comfort and high performance protection in medium to high chemical risk environments. Suitable for use in wet or dry applications, PRO-610 is the go-to glove for a wide range of general splash work applications. Our special blend of nitrile provides excellent mechanical strength and chemical resistance in harsh work environments.

Key Features

Tough, abrasion resistant but soft premium grade nitrile with excellent chemical and mechanical properties, with flock lining for excellent comfort and dexterity. 330mm length for added security and special patterned palm, finger and thumb surface for added grip. Type A.

Applications

Ideal for use in chemical environments including chemical processing, laboratories, printing industry, offshore oil, gas, marine and petrochemical, janitorial, agrochemical.

Product Information

About Treadstone

Who are we?

Treadstone Products is the European face of one of China's finest glove manufacturers - Jiangsu CLS Technology. Our glove portfolio is produced almost entirely in our own exceptional, modern yarn and coating facilities, alongside our superb research centre. Our current capacity is in excess of 1.2 billion pairs of gloves per annum. Our products are all made to the highest quality, meeting the latest EN and ANSI Standards. Our factory has ISO 9001 quality management, ISO 14001 Environmental Management, SA8000 Social Accountability and C-TPAT Management certificated systems in place.

Treadstone represents a new and dynamic, modern range of high quality safety products for discerning glove users and safety conscious employers across Europe. We're building a name and a brand that will be a beacon of trust, with a service and support system to match. *Safety, without compromise.*
