### Product Description

Our super thin nitrile technology provides an exceptional finger hugging fit for superb touch sensitivity and reduced hand fatigue. Free of natural latex this powder free, single use, ambidextrous glove has fingertip micro-textured finish, providing an assured sense of grip in wet or dry conditions. It features a beaded cuff for strength and reduced risk of drips to the wrist and has excellent puncture resistance for a glove in its class. The 4.0gm nitrile provides users with an enhanced level of chemical resistance, toughness and durability - all at a very competitive price. Full EN 374 testing has been completed and the glove meets AQLI.5. It is classified as suitable for medical use (EN 455), food use and for protection against micro-organisms, bacteria, fungi and virus. Type B.

### About Treadstone

#### Who are we?

Treadstone Products is the European face of one of China's finest glove manufacturers - Jiangsu CLS Technology. Our glove portfolio is produced almost entirely in our own exceptional, modern yarn and coating facilities, alongside our superb research centre. Our current capacity is in excess of 1.2 billion pairs of gloves per annum. Our products are all made to the highest quality, meeting the latest EN and ANSI Standards. Our factory has ISO 9001 quality management, ISO 14001 Environmental Management, SA8000 Social Accountability and C-TPAT Management certificated systems in place.

Treadstone represents a new and dynamic, modern range of high quality safety products for discerning glove users and safety conscious employers across Europe. We're building a name and a brand that will be a beacon of trust, with a service and support system to match.

*Safety, without compromise.*
