WITHOUT COMPROMISE

PRO-241	PRO
Cut Resistance Atomic ULTRA	

DATA SHEET

TREADSTONE

SAFETY

Product Description

Graphene composite blended 2lg yarn. This is the ultimate in modern cut resistance. The glove has been dipped with a special P/U coating to provide exceptional touchscreen capability on the palm, thumb and fingers with new innovative long thumb crotch for added security. The glove utilises the Spectrum-iD colour coding system to identify the correct high risk cut gloves for the job. Cut level D.

Key Features

Atomic ULTRA 2l gauge Graphene composite yarn with comfortable lining and breathable back. Exceptional TC Touchscreen P/U palm coating. New Innovative long thumb crotch. Cut level D.

Applications

Use where enhanced cut resistance, dexterity and good grip are required, i.e. mechanical, engineering, manufacturing, automotive, metal parts handling, maintenance, HVAC and assembly work. Usable on most touchscreens.

About Treadstone

Who are we?

Treadstone Products is the European face of one of China's finest glove manufacturers - Jiangsu CLS Technology. Our glove portfolio is produced almost entirely in our own exceptional, modern yarn and coating facilities, alongside our superb research centre. Our current capacity is in excess of 1.2 billion pairs of gloves per annum. Our products are all made to the highest quality, meeting the latest EN and ANSI Standards. Our factory has ISO 9001 quality management, ISO 14001 Environmental Management, SA8000 Social Accountability and C-TPAT Management certificated systems in place.

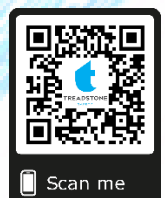

Treadstone represents a new and dynamic, modern range of high quality safety products for discerning glove users and safety conscious employers across Europe. We're building a name and a brand that will be a beacon of trust, with a service and support system to match. *Safety, without compromise.*
