ALWAYS BE ABLE  
TO KEEP SAFE

**QUALITY**

WITHOUT COMPROMISE

# CLIP GLOVE

THE GLOVE YOU'LL  
ALWAYS BE ABLE  
TO KEEP SAFE

## Growing innovation...

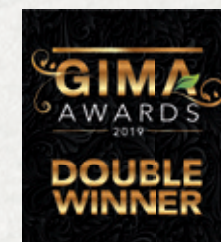

We've had a great response from retailers and consumers alike to our innovative range of gloves. This year we're offering a space efficient back wall solution as well as high impact clip strip deals and triple pack promotions in a "hot spot" dumpbin.

**YOU'LL NEVER  
LOSE YOUR  
GARDEN GLOVES  
AGAIN!**

## OUR GLOVE DNA

Our range of gloves has been developed with a major supplier of industrial safety gloves. This industry "know how" has produced gloves with unprecedented levels of comfort, dexterity and protection. Late 2019 will see the launch of Treadstone Safety, a range of gloves for industry which have been tested to meet the rigours of BS EN388 – another reason you can have confidence in our range of Garden Gloves.

## A GARDENING GLOVE DESIGNED FOR YOU

### LOOKING GOOD!

Our gloves not only offer excellent performance, but they also look great!

We've fashioned 2 distinct colour palettes to ensure our gloves create impact on the shop floor and offer consumers a chic sense of style!

### TEXTILES FOR TODAY

We carefully select the best textiles for each glove. From skin friendly bamboo fibres to technologically advanced Cut Proof Fibres, and durable Synthetic Leathers to sweat absorbing Terry fabric to wipe that brow during strenuous gardening activity.

And of course...

### THAT CLEVER LITTLE CLIP!

Each pair of gloves is held together with an Aluminium Carabiner clip. This clip holds each pair together in store, so no more torn header cards!

The design also allows consumers to try on both gloves without removing them from the clip. But the real beauty of the clip is that gardeners will never lose their gloves again! Clip them to a belt or a garden bag, hang them in the shed or on the line to dry – Genius!

# A RANGE OF GARDEN GLOVES DESIGNED ESPECIALLY FOR LADIES

## SHOCK ABSORBER

### PADDED HAND PROTECTION

CLIP STRIP DEALS

# HIGH IMPACT AND SPACE EFFICIENT

**"Bright, interactive, eye-catching and very informative."**

The Clip Glove main range stand holds our complete collection of 20 gloves each in two sizes. The panels feature informative graphics to help the consumer select the correct glove as well as a clever size guide for both men and women. A specially designed hook system prevents the gloves falling from the spinner even when fully loaded. In addition to the Clip Glove branding, the header clearly identifies the size of each glove in the column below.

- The unit holds 240 pairs of gloves and 48 packs of clips all in less than 0.4m<sup>2</sup> of floor space
- Supplied flat packed complete with full graphics pack
- Assembled size including headers 0.6 x 0.6 x 2.12m

**"A breakthrough in garden gloves – functional and on-trend with some great designs."**

**Main Range Spinner Stand**

Our new wall stand for the Clip-Glove range is as clever as our original spinner stand. It holds the full main range of 40 gloves in only a 1m run. The secret is in the clever 2-tier hook system which allows both glove sizes to be displayed in one facing. Each position is clearly labelled with the glove type and size. The high impact side graphics aid product selection and include a handy size guide.

**NEW**

**Wall Stand**

- Assembled size including headers – 1 x 0.55 x 2.2m

**Compact Stand**

- Holds 24 assorted SKUs (144 pairs of gloves)
- Assembled size – 0.4 x 0.46 x 1.8m
