Instructions for use Hold the glove from its cuff with one hand and insert your other hand into the glove with the palm side underneath the coated palm. Pull back the gloves and ensure that the glove fits well. Repeat the same for the glove of the other side. Always wear both gloves during use.

Make sure that you follow the cleaning and storing directions for your gloves as stated.

The glove is not washable, it should only be wiped with a damp cloth.

Protective gloves that are no longer deemed serviceable for reasons of damage, contamination, or other unsafe condition must be disposed of as per local provisions, taking into account recycling of material applicable.
